

1 ABSTRACT OF THE DISCLOSURE

2 A protective display holder for a flat item, such as a collectible card or a
3 photograph, comprising a substantially rigid base having a flat top surface and a recess
4 from the flat surface for receiving the flat item; a substantially rigid cover having a flat
5 bottom surface; and at least one magnetic member affixed to the base, and at least one
6 magnetic member affixed to the cover and magnetically attracted to the at least one
7 magnetic member affixed to the base for urging the bottom surface of the cover against
8 the top surface of the base.
